

Installation steps:

1. Drill two holes in the wall and insert the expansion rubber plug into the holes
2. Secure the mounting bracket to the junction box using screws
3. Reinforce the mounting bracket using self-tapping screws
4. Connect the main line and ground cable of the lamp body to the cables reserved on the junction box, and then plug the excess cables into the junction box
5-6. Put the canopy on the mounting bracket, and then tighten the screws to secure the canopy
7-8. Fit the central hole of the lampshade onto the lamp holder, then tighten the lamp holder ring to secure it.
9. Install the light bulb (bulb not included).

Safety Instructions:

To avoid fire, shock, and serious personal injury, follow all instructions carefully.
1. Do not install or use the light fixture if any part is missing or damaged.
2. To avoid possible electrical shock be sure electricity is turned off at the main fuse or circuit breaker box before wiring.
3. Make certain no bare wires are exposed outside the wire connectors.
4. All wiring must conform to national and local electrical codes.
5. Follow the recommended instructions for the proper method of wiring your new light fixture. If you feel you do not have enough electrical wiring knowledge or experience, have your light fixture installed by a licensed electrician. Any electrical work not described in this manual should be performed by a licensed electrician.
