Assembly & Installation Instructions

PREPARATION before INSTALLATION:

1. If an existing fixture is being replaced, remove it and note to which wire in the outlet box the original fixture was attached.
2. Before discarding the carton, double-check the packaging to make sure all parts have been found.
3. This fixture was designed to be mounted on an octagon outlet box. The box must be securely mounted to the structure of the building.

IMPORTANT:

1. WARNING - Disconnect power before relamping or wiring the fixture.
Turn off the entire electrical circuit to which the lighting fixture is attached.
2. Installation and maintenance of this fixture should be completed by a licensed electrician.
3. Failure to install the fixture correctly could result in serious injury or death.
4. Read all instructions before starting installation.

INSTALLATION STEPS:

Step 1: Secure the Mounting Bracket
Attach the mounting bracket to the U.S. standard junction box using the provided screws.
Step 2: Connect the Electrical Wires
Use wire nuts to connect the fixture wires to the house wiring as follows:
Black wire → black (hot) wire
White wire → white (neutral) wire
Ground wire → house ground wire, or attach to the mounting bracket using the provided green grounding screw
Caution: Ensure that no bare wires are exposed outside the wire nuts to prevent electric shock.
Step 3: Install the Ceiling Canopy
Place the ceiling canopy over the mounting bracket, then secure it using the provided nut.
Step 4: Install the Light Bulbs
Screw the bulbs into the sockets. (Bulbs not included.)
Step 5: Install the Lampshade
Attach the lampshade to the socket. Align the threads carefully and avoid applying excessive force when screwing it in.
