Assembly & Installation Instructions

PREPARATION before INSTALLATION:

1. If an existing fixture is being replaced, remove it and note to which wire in the outlet box the original fixture was attached.
2. Before discarding the carton, double-check the packaging to make sure all parts have been found.
3. This fixture was designed to be mounted on an octagon outlet box. The box must be securely mounted to the structure of the building.

IMPORTANT:

1. WARNING - Disconnect power before relamping or wiring the fixture.
Turn off the entire electrical circuit to which the lighting fixture is attached.
2. Installation and maintenance of this fixture should be completed by a licensed electrician.
3. Failure to install the fixture correctly could result in serious injury or death.
4. Read all instructions before starting installation.

INSTALLATION STEPS:

1.Loosen the screw to adjust the suspension wire to the desired height, then tighten the screw to secure it, and position the wire clasp at the bottom.

2.Secure the mounting bracket to a U.S.-standard junction box with screws.

3.Connect the wires using wire connectors as follows:

Connect the POSITIVE wire of the main wire to the LIVE wire.

Connect the NEGATIVE wire to the NEUTRAL wire.

Secure the fixture ground wire and external ground wire.

4.Secure the ceiling plate to the mounting bracket with decorative nuts.

5.Install the lampshade onto the lamp holder and secure it with the metal ring.

6.Install the bulb (NOT included) as indicated.
