Assembly & Installation Instructions

PREPARATION before INSTALLATION:

1. If an existing fixture is being replaced, remove it and note to which wire in the outlet box the original fixture was attached.
2. Before discarding the carton, double-check the packaging to make sure all parts have been found.
3. This fixture was designed to be mounted on an octagon outlet box. The box must be securely mounted to the structure of the building.

IMPORTANT:

1. WARNING - Disconnect power before relamping or wiring the fixture.
Turn off the entire electrical circuit to which the lighting fixture is attached.
2. Installation and maintenance of this fixture should be completed by a licensed electrician.
3. Failure to install the fixture correctly could result in serious injury or death.
4. Read all instructions before starting installation.

INSTALLATION STEPS:

Step 1:Power Off
Turn off the power supply before installation.
Step 2:Mount Bracket
Secure the mounting bracket (B) to the junction box using the screws (C).
Step 3:Connect Wires
Connect the fixture wires (D) to the household power wires using wire connectors (A), ensuring correct polarity.Secure the ground wire (E) with the green grounding screw, then connect it to the external ground wire using wire connectors (A).
Step 4:Attach Canopy
Tighten and secure the ceiling canopy (G) onto the mounting plate (B) using the flat head screw (F).
Step 5:Install Bulb
Install the light bulb (J) into the lamp holder (I) (bulb not included).
Step 6:Attach Lampshade
Tighten and secure the lampshade (K) onto the lamp holder (I) using the hand-tight screws (H).
Step 7:Power On
Turn on the power switch to operate the fixture.
Installation is complete
