Assembly & Installation Instructions

PREPARATION before INSTALLATION:

1. If an existing fixture is being replaced, remove it and note to which wire in the outlet box the original fixture was attached.
2. Before discarding the carton, double-check the packaging to make sure all parts have been found.
3. This fixture was designed to be mounted on an octagon outlet box. The box must be securely mounted to the structure of the building.

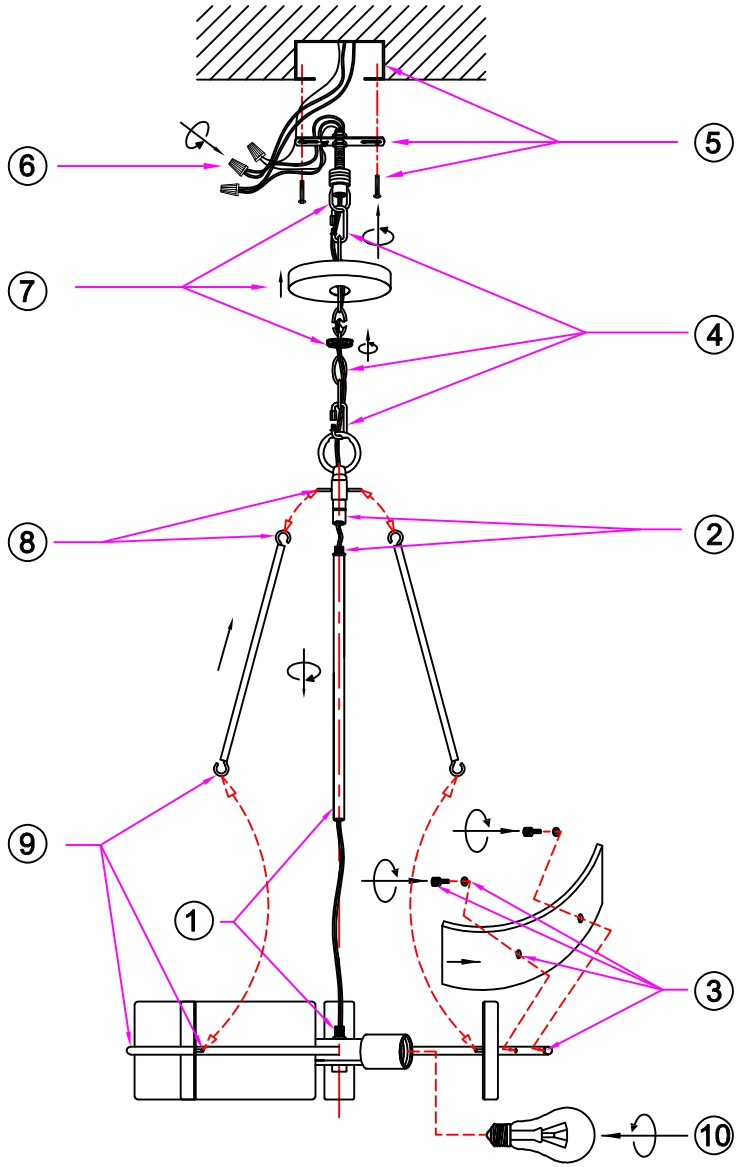

IMPORTANT:

1. WARNING - Disconnect power before relamping or wiring the fixture.
Turn off the entire electrical circuit to which the lighting fixture is attached.
2. Installation and maintenance of this fixture should be completed by a licensed electrician.
3. Failure to install the fixture correctly could result in serious injury or death.
4. Read all instructions before starting installation.

INSTALLATION STEPS:

Step 1:Thread Center Tube
Thread the power cord through the hollow center tube and secure it to the fixture.
Step 2:Attach to Swivel
Pass the power cord through the hanging ring and attach the hollow center tube to the swivel joint.
Step 3:Install Glass Gasket
Slide the transparent rubber gasket onto the knurled threaded stud, pass it through the glass hole, and secure it onto the iron ring (tighten gently).
Step 4:Adjust Chain
Loosen the swivel clasp, pass the power cord through the hanging chain, adjust the chain length and cord length as needed,then retighten the swivel clasp.
Step 5:Mount Bracket
Secure the mounting bracket to the U.S. standard junction box using the mounting screws.

Assembly & Installation Instructions

INSTALLATION STEPS:

Step 6:Connect Wires
Thread the power cord through the mounting bracket and connect the incoming and outgoing wires using wire connectors.
· Connect positive to positive (hot/live), negative to negative (neutral), and ground wire to the grounding terminal.
· Ensure no wires are exposed during the wiring .
Step 7:Secure Canopy
Secure the ceiling canopy to the mounting bracket using crystal finial ring.
Step 8:Hang Upper Rod
Hang the upper end of the downrod onto the fixture, ensuring the hook opening faces inward.
Step 9:Hook Lower Rod
Lift the fixture and hook the lower end of the downrod onto the metal loop inside the fixture's iron ring.
Step 10:Install Bulb
Install the light bulb into the lamp socket.
Step 11： Power Test
Turn on the power and verify that the bulb is functioning properly.
Installation is complete
