Assembly & Installation Instructions

PREPARATION before INSTALLATION:

1. If an existing fixture is being replaced, remove it and note to which wire in the outlet box the original fixture was attached.
2. Before discarding the carton, double-check the packaging to make sure all parts have been found.
3. This fixture was designed to be mounted on an octagon outlet box. The box must be securely mounted to the structure of the building.

IMPORTANT:

1. WARNING - Disconnect power before relamping or wiring the fixture.
Turn off the entire electrical circuit to which the lighting fixture is attached.
2. Installation and maintenance of this fixture should be completed by a licensed electrician.
3. Failure to install the fixture correctly could result in serious injury or death.
4. Read all instructions before starting installation.

INSTALLATION STEPS:

1. Secure the mounting plate (B) to the junction box with screws (C).
2. Connect the wires (D) using the wire caps (A) as follows:
Connect the fixture's LIVE/HOT wire to the home LIVE/HOT wire.
Connect the fixture's NEUTRAL wire to the home NEUTRAL wire.
Connect the fixture's GROUND wire (E) to the home GROUND wire with the wire caps (A).
*Note: Ensure no wire strands are exposed.
3. Secure the ceiling canopy (F) to the mounting plate (B) with the decorative nut (G).
4. Secure the lampshade (I) to the lamp holder (H) with the lamp holder retaining ring (J).
5. Install the bulb (K) onto the lamp holder (H) (Bulb not included).
6. Turn on the power switch and test the light. Installation complete.
