Assembly & Installation Instructions

PREPARATION before INSTALLATION:

1. If an existing fixture is being replaced, remove it and note to which wire in the outlet box the original fixture was attached.
2. Before discarding the carton, double-check the packaging to make sure all parts have been found.
3. This fixture was designed to be mounted on an octagon outlet box. The box must be securely mounted to the structure of the building.

IMPORTANT:

1. WARNING - Disconnect power before relamping or wiring the fixture.
Turn off the entire electrical circuit to which the lighting fixture is attached.
2. Installation and maintenance of this fixture should be completed by a licensed electrician.
3. Failure to install the fixture correctly could result in serious injury or death.
4. Read all instructions before starting installation.

INSTALLATION STEPS:

Step 1: Secure the Mounting Bracket
Attach the mounting bracket to the U.S. standard junction box using the provided screws.
Step 2: Connect the Electrical Wires
Use wire nuts to connect the fixture wires to the house wiring as follows:
Black (hot) wire → black (hot) wire
White (neutral) wire → white (neutral) wire
Ground wire → ground terminal
Caution: Make sure no bare wires are exposed outside the wire nuts to prevent electric shock.
Step 3: Install the Ceiling Canopy
Tuck all wires into the junction box. Then secure the ceiling canopy to the mounting bracket using the provided nuts.
Step 4: Install the Light Bulb
Screw the light bulb into the socket. (Bulb not included.)
Step 5: Install the Glass Shade
Carefully screw the glass shade onto the socket. Make sure the threads are properly aligned before tightening. (Do not overtighten.)
Step 6: Restore Power and Test
Turn on the power and verify that the fixture is operating properly.
