Assembly & Installation Instructions

PREPARATION before INSTALLATION:

1. If an existing fixture is being replaced, remove it and note to which wire in the outlet box the original fixture was attached.
2. Before discarding the carton, double-check the packaging to make sure all parts have been found.
3. This fixture was designed to be mounted on an octagon outlet box. The box must be securely mounted to the structure of the building.

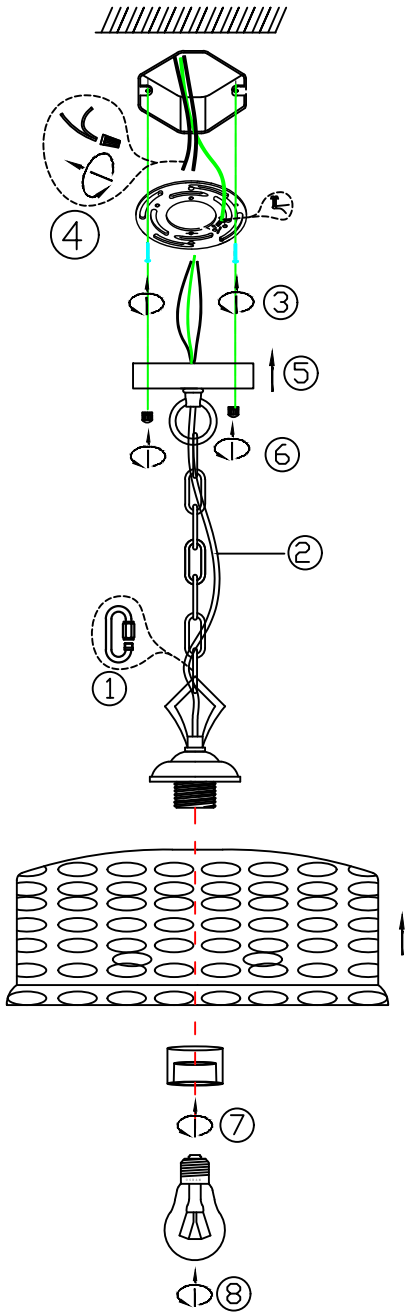

IMPORTANT:

1. WARNING - Disconnect power before relamping or wiring the fixture.
Turn off the entire electrical circuit to which the lighting fixture is attached.
2. Installation and maintenance of this fixture should be completed by a licensed electrician.
3. Failure to install the fixture correctly could result in serious injury or death.
4. Read all instructions before starting installation.

INSTALLATION STEPS:

Step 1: Install the Chain
Attach both ends of the chain to the hanging rings on the fixture body and ceiling canopy using the quick links. (Adjust the chain length as needed to achieve the desired hanging height.)
Step 2: Route the Wires Through the Chain and Canopy
Pass the main power wire and ground wire through the chain, then feed them through the center hole of the ceiling canopy.
Step 3: Secure the Mounting Plate
Attach and tighten the mounting plate to the U.S. standard junction box using the provided screws.
Step 4: Connect the Wiring
Use wire nuts to connect the fixture wires to the pre-installed house wiring as follows:
Fixture(hot) wire (marked L) → Supply(hot) wire (L)
Fixture(neutral) wire (marked N) → Supply(neutral) wire (N)
Ground wire (green or bare copper) → House ground wire
Secure the fixture ground wire and the house ground wire to the mounting plate using the green grounding screw.
Caution: Ensure all wire connections are secure and no bare wire is exposed outside the wire nuts.

Assembly & Installation Instructions

INSTALLATION STEPS:

Step 5-6: Secure the Ceiling Canopy
Place the ceiling canopy over the mounting plate, then tighten the decorative cap nuts to securely fasten the canopy in place.

Step 7: Install the Lampshade
Align the center opening on the top of the lampshade with the socket, then secure the shade by tightening the socket ring.

Step 8: Install the Light Bulb
Install the light bulb into the socket. (Bulb not included.)

Step 9: Restore Power and Test
Turn on the power and verify that the fixture is operating properly.
