Assembly & Installation Instructions

PREPARATION before INSTALLATION:

1. If an existing fixture is being replaced, remove it and note to which wire in the outlet box the original fixture was attached.
2. Before discarding the carton, double-check the packaging to make sure all parts have been found.
3. This fixture was designed to be mounted on an octagon outlet box. The box must be securely mounted to the structure of the building.

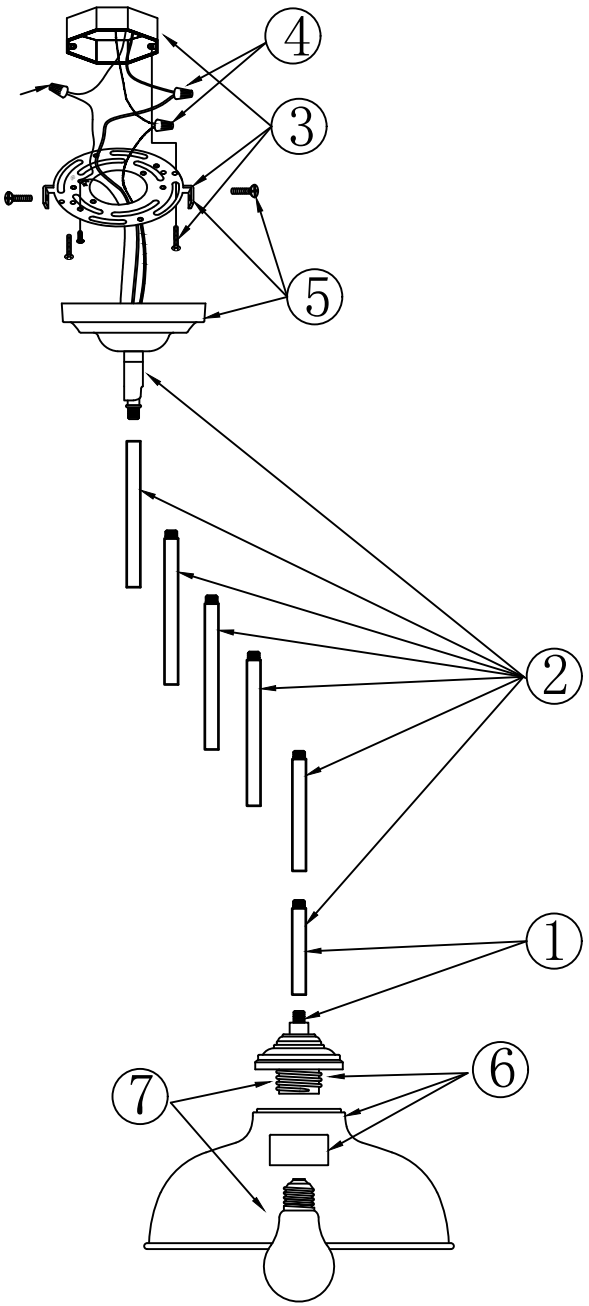

IMPORTANT:

1. WARNING - Disconnect power before relamping or wiring the fixture.
Turn off the entire electrical circuit to which the lighting fixture is attached.
2. Installation and maintenance of this fixture should be completed by a licensed electrician.
3. Failure to install the fixture correctly could result in serious injury or death.
4. Read all instructions before starting installation.

INSTALLATION STEPS:

Step 1: Install the Hanging Rod
Select the required hanging height and prepare the hanging rod. Feed the fixture wires through the hanging rod, then attach the hanging rod to the threaded section on the top of the fixture body as shown in the diagram.
Step 2: Install the Universal Joint and Ceiling Canopy
Feed the fixture wires through the Universal joint and ceiling canopy, then attach the Universal joint to the hanging rod and tighten securely.
Step 3: Install the Mounting Plate
Secure the mounting plate to the U.S. standard junction box using the provided screws.
Step 4: Connect the Wiring
Use wire nuts to connect the fixture wires to the house wiring as follows:
Black fixture wire (Hot) → Black house wire (Hot)
White fixture wire (Neutral) → White house wire (Neutral)
Ground wire → House ground wire
Secure the ground wire to the grounding screw on the mounting plate.
Caution: Ensure all wire connections are secure and no bare wire is exposed outside the wire nuts.
Step 5: Secure the Ceiling Canopy
Push the ceiling canopy flush against the ceiling. Align the side holes of the canopy with the side holes of the mounting plate, then insert the screws through the canopy and tighten to secure the fixture to the mounting plate.

Assembly & Installation Instructions

INSTALLATION STEPS:

Step 6: Install the Metal Shade
Pass the upper opening of the metal shade over the socket, then secure the shade to the fixture body using the socket ring.
Step 7: Install the Light Bulb
Install the compatible light bulb into the socket. (Bulb not included.)
Step 8: Restore Power and Test
Turn on the power and verify that the light bulb is operating properly.
