Assembly & Installation Instructions

PREPARATION before INSTALLATION:

1. If an existing fixture is being replaced, remove it and note to which wire in the outlet box the original fixture was attached.
2. Before discarding the carton, double-check the packaging to make sure all parts have been found.
3. This fixture was designed to be mounted on an octagon outlet box. The box must be securely mounted to the structure of the building.

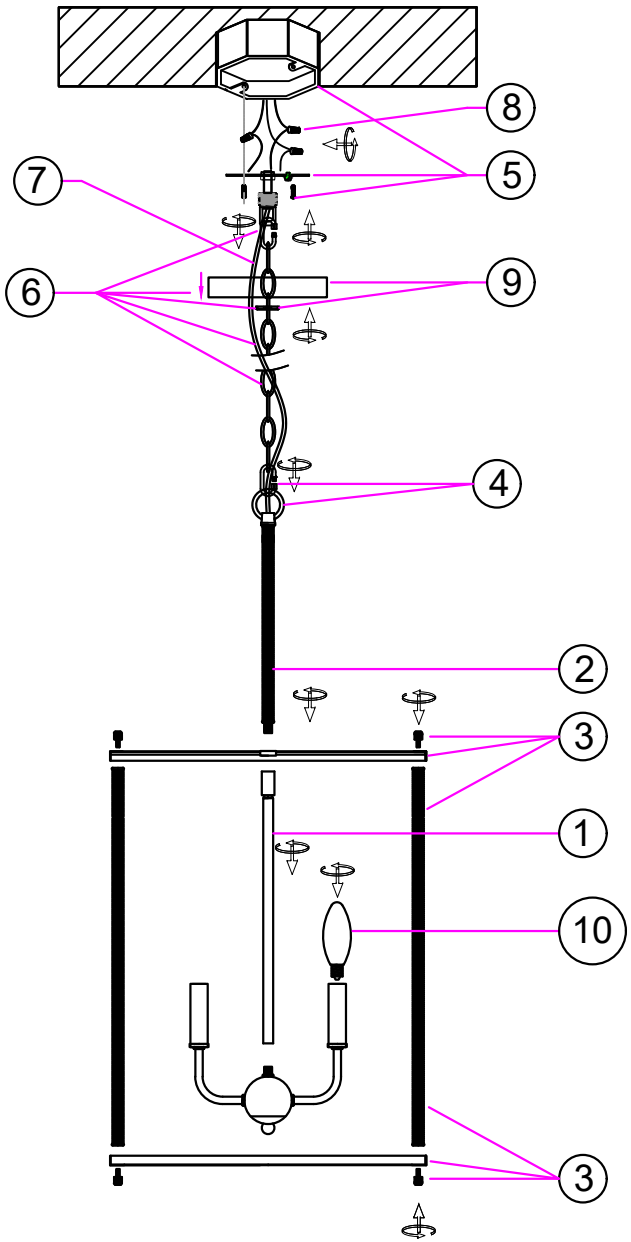

IMPORTANT:

1. WARNING - Disconnect power before relamping or wiring the fixture.
Turn off the entire electrical circuit to which the lighting fixture is attached.
2. Installation and maintenance of this fixture should be completed by a licensed electrician.
3. Failure to install the fixture correctly could result in serious injury or death.
4. Read all instructions before starting installation.

INSTALLATION STEPS:

Step 1: Install the Center Tube Assembly
Feed the fixture wires and ground wire through the center tube, then tighten the center tube onto the socket assembly.
Step 2: Assemble the Upper Ring and Hanging Rod
Feed the fixture wires and ground wire through the upper hollow ring with cross bracket and the hanging rod with hanging ring. Attach the hanging rod and upper hollow ring to the center tube, then tighten securely.
Step 3: Assemble the Rope-Wrapped Shade Frame
Secure the four rope-wrapped straight tubes between the upper and lower hollow rings using the provided thumb screws to complete the shade frame assembly.
Step 4: Attach the Quick Links
Attach the quick links to the hanging rings on the fixture body and tighten securely.
Step 5: Install the Mounting Hardware
Secure the screw collar loop crossbar assembly to the U.S. standard junction box using the provided screws.
Step 6: Install the Chain and Ceiling Canopy
Adjust the chain to the desired hanging height. Feed the fixture wires and ground wire through the screw collar ring, ceiling canopy, and chain. Attach the chain to the screw collar loop using the quick link, then tighten securely.

Assembly & Installation Instructions

INSTALLATION STEPS:

Step 7: Route the Wires Through the Mounting Hardware
Feed the fixture wires and ground wire through the center opening of the screw collar loop crossbar assembly.

Step 8: Connect the Wiring
Use wire nuts to connect the fixture wires to the house wiring as follows:
Fixture wire marked “L” → House hot wire (black)
Fixture wire marked “N” → House neutral wire (white)
Green or bare copper ground wire → House ground wire
Secure the fixture ground wire and house ground wire to the mounting plate using the green grounding screw.
Caution: Ensure all wire connections are secure and no bare wire is exposed outside the wire nuts.

Step 9: Secure the Ceiling Canopy
Push the ceiling canopy flush against the ceiling, then tighten the screw collar ring to secure the canopy in place.

Step 10: Install Light Bulbs
Install compatible light bulbs into the sockets. (Bulbs not included.)

Step 11: Restore Power and Test
Turn on the power and verify that the fixture operates properly.
